Subject: Funding Impact bullets for Wilcox Oil Company
Date: Monday, January 23, 2017 9:07:00 AM

Blake, below is a bullet list of potential impacts that would result should funding for Wilcox be delayed.

- Loss of credibility and reliability of project team in eyes of the community to address site contamination
- 4 occupied residential properties remain contaminated with extent and potential exposure risks unknown
- Current data do not suggest an imminent vapor intrusion exposure; however, the potential for vapor intrusion exposure cannot be eliminated
- Contaminant source migration pathways to ground water and surface water remain unknown and potentially active
- Mitigation efforts, on an interim basis, cannot be evaluated or implemented to control potential contaminant migration and exposure
